

**Steifpower Technology Company Limited**

To whom it may concern:

Steifpower Technology Company Limited (Steifpower) is aware of REACH as a European Community regulation on chemicals. Currently Steifpower supports the underlying goals of REACH, which are consistent with our own commitment to promote the responsible manufacturing, use and handling of hazardous materials and substances.

After careful review of the legislation and specifically the definition of an “article” as defined in EC Regulation 1907/2006, Title II, Chapter 1, Article 7.1(a)(b), it is our current view Steifpower products would be considered as “articles”. In light of the definition in §7.1(b) which requires registration of an article only if it contains a regulated substance that “is intended to be released under normal or reasonably foreseeable conditions of use,” Our analysis is that Steifpower products constitute non-registrable articles for their intended and anticipated use.

Steifpower Technology Company Limited (Steifpower) hereby certifies that all plastic devices manufactured by Steifpower meet the substance restrictions specified in Annex XVII of Regulation (EC) No. 1907/2006 (REACH), do not contain substances on the REACH 191 SVHC candidate list in concentrations greater than 0.1% by weight per article.

Steifpower Technology Company Limited hereby certifies that all devices manufactured by Steifpower are in compliance with the Restriction of Hazardous Substances (RoHS) Directive 2002/95/EC& 2011/65/EU&2015/863/EU(RoHS2.0).

Sincerely,

*Howard*
